

DeVilbiss FlexSet® Nasal CPAP Mask

One Mask, So Many Options

With so many nasal CPAP mask options on the market, it is cost prohibitive to stock all of them. The improved DeVilbiss FlexSet Nasal Mask provides 8 different cushion options, including the **new ultra-soft ComfortTouch™ cushion**, allowing you to minimize stock and build the mask to suit your patient.

The FlexSet Mask is amazingly intuitive to use. Its lightweight design and minimal headgear make the mask extremely comfortable for the patient to wear. Additionally, the tubing can be worn straight down or over the head for added flexibility.

DeVilbiss FlexSet
Nasal CPAP Mask

Features

- Redesigned headgear and unique forehead adjustment with pivoting design help to ensure a secure fit
- Exclusive ComfortTouch mask cushion finish with a non-stick, satin texture, available on both silicone and gel mask cushions
- Patented adjustable exhaust port allows patient to control direction of escaping air
- Hose connection swivel elbow rotates 360 degrees or can be locked upright to run tubing overhead
